ORIGINAL RELAXOUND BOXES & INTERIOR:
INTUITIVE RELAXATION FOR WELL-BEING

DESIGN
YOUR SPACE
WITH SOUND

SOUND IS INTERIOR DESIGN

Just like light, colour, shape and materials, sound influences how comfortable we feel. It helps us unwind, recharge, and breathe deeply. It works intuitively, requiring no effort on our part for it to have an effect on us.

Original Relaxound boxes bring sound to any interior. With inspiring tones of nature, they create acoustic highlights within spaces. The boxes can be flexibly combined, making it easy to craft unique soundscapes.

We make the most impactful sounds for spatial design accessible: nature sounds. Numerous scientific studies confirm that they have an especially positive impact on health and well-being.

There are two sound categories: soundscapes, which sound so authentic that they make you feel as if you are truly there, and single sounds from our Satelliteboxes, which add acoustic accents and can be flexibly combined with other sound boxes.

THE RELAXOUND FEEL SOUND PRINCIPLE

Inspired by the maxim "A sound mind in a sound body," Relaxound sound boxes naturally enhance our well-being.

Their sounds feel as essential as light or colour, creating a relaxed atmosphere that can be customised to suit individual preferences.

SOUND BOXES

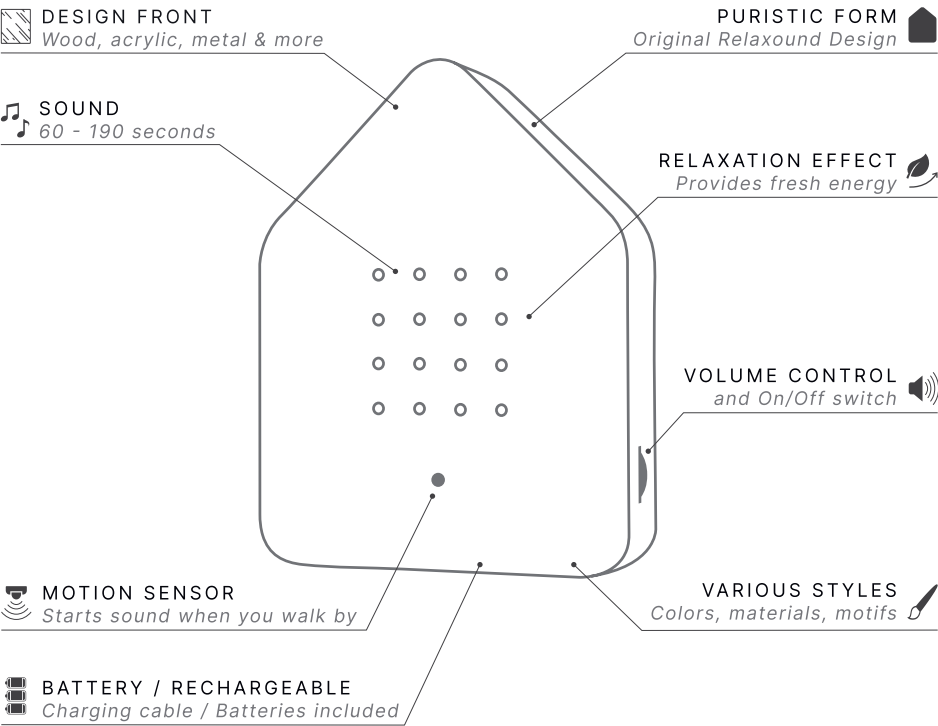

RELAXATION OUT OF THE BOX

SMALL BOXES, BIG IMPACT

Relaxound sound boxes are true originals: each box has its own unique character and varies in details, yet they all share the same recipe for success – relaxation out of the box.

Their charismatic design adds a special touch to any setting: whether in the bathroom, hallway, living room, or any other space. They serve as both acoustic and visual highlights.

Key Features of our boxes at a glance

Inspiring sound

Our sound boxes deliver authentic soundscapes and carefully curated tones. Activated by a motion sensor, they play for a set duration before gently fading out.

Puristic design

The iconic shapes of the sound boxes complement any setting. Design fronts are available in hand-finished wood, appealing colours, and distinctive motifs. All options can be easily combined.

ZWITSCHERBOX THE ORIGINAL SINCE 2013

The Zwitscherbox transports us to a sun-drenched forest clearing. For 120 seconds, we listen to a cheerful birdsong in a lively forest atmosphere and feel wonderfully refreshed. This concept has taken the world by storm.

Since 2013, the Zwitscherbox has sold over 1.6 million units. Every day, it brings a smile to the faces of its fans. It was the product that launched our success story. A classic that continues to captivate with its diverse designs.

BIRDYBOX

THE SHORT AND REFRESHING BIRD CONCERT

The Birdybox sends us a refreshing greeting from the forest. Its short 20-second bird concert provides immediate relaxation. It is especially popular due to its elegant design fronts made of metal, wood, and other natural materials.

Patinated metals, muted oak, fine Jesmonite, and Terrazzo set accents. Each design front is hand-finished and unique. The wood is 100 % water-steamed to ensure the highest quality and durability. Additionally, the elegant packaging is made from 100 % recycled paper.

LAKESIDEBOX

THE FOREST LAKE FOR IN BETWEEN

The Lakesidebox transports us with its soundscapes to the shore of an idyllic forest lake. After 120 seconds, we return refreshed from our favourite lake, already looking forward to the next visit. The gentle sounds of nature help us unwind and momentarily escape the daily hustle.

There are attractive designs to choose from. A crowd favourite is our design front in white, followed by fine oak wood and evocative lake motifs. For those who prefer something fruity, they can opt for colour fronts in vibrant peach, lime, and orange.

PURE SOUNDS

Enjoy pure or combine

The puristic single sounds of the Satelliteboxes offer a novel variety for designing a space with sound. Whether used individually or in combination, they add unique accents to any setting. Like splashes of colour, they create a captivating effect that becomes even more inspiring when paired with additional boxes.

A new sound universe

Satelliteboxes offer sounds for every taste: we linger by a babbling forest brook, enjoy the summery chirping of crickets, or listen to the enchanting song of the nightingale. Each room transforms into a mesmerising sensory experience that can be tailored to our individual acoustic preferences.

Colours to fall in love with

The elegant pastel shades of the Satelliteboxes are perfectly coordinated. They combine beautifully and enhance any setting. Together, they create a tasteful complement to the inspiring soundscapes of the Satelliteboxes.

Hand-finished woods

Satelliteboxes are also available in premium oak wood: the delicate grain makes each piece unique. Our wood workshop processes only certified wood from sustainably managed forests, with great attention to detail and a love for craftsmanship.
